

MAAX MOBILE ACADEMY - NEWS RELEASE

Draft by Kevin McKeever v. 2

May 30, 2011

**MAAX Mobile Academy transforms the product road show
with high-tech tub-and-shower experience**

<INSERT LOCAL CITY, STATE>, **<MONTH DATE>**, 2011 – MAAX Bath Inc., known as an industry leader in product innovation, now turns the staid product showcase concept inside out with the novel **MAAX Mobile Academy**, a high-tech experience to show off the company's latest tub, shower and shower door designs coming **<DATE/TIME>** to **<HOST NAME/LOCATION>**.

A surprising, unique and powerful hands-on experience

MAAX Mobile Academy arrives looking like no more than an ordinary steel shipping container. A flip of a switch then sets in motion a metamorphosis worthy of a "Transformers" movie.

The sides of this 6-ton monolith come to life, unfolding dramatically to unveil a ready-to-go, **studio-quality, all-weather showroom**, complete with energy-efficient lighting, a 50-inch LCD multimedia presentation system and even running water for the MAAX tubs and showers on display.

The MAAX Mobile Academy creates a **true destination event** for wholesalers, building professionals and consumers alike. It combines a new product demonstration with a sales and marketing training seminar in a remarkable one-of-a-kind setting that stimulates all the senses.

Powerful statement on innovation and ease-of-use

"We wanted to make a powerful statement about our brand promise that people 'enjoy the experience' with MAAX," MAAX President and CEO Mark A. Gold said. "Giving our business partners the ability to set up a working product showroom almost anywhere within minutes embodies the MAAX commitment to finding innovative solutions that offer simplicity, pleasure and style from ordering to installation to use."

Launched in May, the MAAX Mobile Academy tours the United States throughout the summer. A journey to destinations across Canada starts in September.
